A VENUE OF *Distinction*

Built in 1875 by the grandfather of Sorrento, George Coppin, The Continental is the only four-story limestone building in the Southern Hemisphere and is the showpiece of the Mornington Peninsula.

The Continental has been an intrinsic part of the Sorrento township for almost 150 years and is one of Victoria's most important heritage landmarks. The momentous task of restoring The Continental as the preeminent leisure destination of Australia was completed in 2022. Perched high on Constitution Hill and providing pristine views of the surrounding area and bay, our world-class concept brings a multi-faceted offering that caters for spectacular weddings. It is, without doubt, a venue that emulates timeless romance and beauty, perfect for your wedding.
